

MTNL Messaging

Dear MTNL Email User:

MTNL will be performing a Hardware maintenance on Email servers for bringing in latest generation servers and storage and taking the old servers offline. Once these changes are done, MTNL intends to introduce exciting new changes to Email infrastructure including better features, more storage, etc.

This change is to be done on 28-7-2016 evening. There will be no downtime. Users can continue to send / receive emails as before. However, if you have stored any data in the current Email server, those will not be available from 28/07/2016 evening to 29/7/2016 evening.

It is expected to be a smooth transition. Thanks for supporting us all along. This upgrade will bring better features for MTNL Email users. If you do have any queries, please contact our helpdesk on Telephone Nos –24331175/24329434/24331408 or on Email–ID mailsupport@mtnl.net.in.

Thanks & Regards,
MTNL Email Help Desk
